<b>Name</b>	<b>Type</b>	<b>Required</b>	<b>Default</b>	<b>Description</b>
name	String	Yes		The name of the cookie variable.
value	String	No		The value assigned to the cookie variable.
expires	object	No		Schedules the expiration of a cookie variable. Can be specified as a date (as in, 10/09/97), number of days (as in, 10, 100), "Now", or "Never". Using Now effectively deletes the cookie from the client browser.
secure	Boolean	No		Yes or No. Specifies that the variable must transmit securely. If the browser does not support Secure Socket Layer (SSL) security, the cookie is not sent.
path	String	No		
domain	String	No		

## **Example Usage**
