

# cfgridrow

## Description

Lets you define a cfgrid that does not use a query as source for row data. If a query attribute is specified in cfgrid, the cfgridrow tags are ignored.

## Category

Other

## Implemented

## Usage Syntax

```
data="String"/>
```

*[] = Optional attribute*

## Attributes

Name	Type	Required	Default	Description
------	------	----------	---------	-------------

data	String	Yes		A comma-separated list of column values. If a column value contains a comma character, it must be escaped with a second comma character.
------	--------	-----	--	------------------------------------------------------------------------------------------------------------------------------------------
