

cfparam

Description

Tests for a parameter's existence, tests its data type, and provides a default value if one is not assigned.

Category

Other

Implemented

Usage Syntax

```
name="String"  
[type="String"]  
[default="Any"]  
[min="number"]  
[max="number"]  
[pattern="String"]  
/>
```

[] = Optional attribute

Name	Type	Required	Default	Description
name	String	Yes		The name of the parameter to test, such as Client.Email or Cookie.BackgroundColor. If you omit the DEFAULT attribute, an error occurs if the specified parameter does not exist
type	String	No		The type of parameter that is required. The default is 'any'.
default	Any	No		Default value to set the parameter to if it does not exist.
min	number	No		define the smallest size of a numeric value, used for type range
max	number	No		define the biggest size of a numeric value, used for type range
pattern	String	No		define a regular expression pattern, to check value against

Example Usage
