cfcollection

Syntax

```
[action="string"]  
[categories="boolean"]  
[collection="string"]  
[engine="string"]  
[language="string"]  
[name="string"]  
[path="string"]>
```

This tag is also supported within cfscrip.

```
collection  
[action="string"]  
[categories="boolean"]  
[collection="string"]  
[engine="string"]  
[language="string"]  
[name="string"]  
[path="string"];
```

[] = Optional attribute

Description

Allows you to create and administer Search collections.

Body

This tag can't have a body.

Attributes

The attributes for this tag are fixed. Except for the following attributes no other attributes are allowed.

Name	Type	Required	Description
action	string	No	Specifies the action to perform.
categories	boolean	No	Used only for creating a collection
collection	string	No	Specifies a collection name or an alias if action = "map"
engine	string	No	This attribute only exists for compatibility reasons to other CFML engines, the attribute is completely ignored by Railo.
language	string	No	Options are listed in Usage section. Requires the appropriate (European or Asian) Verity Locales language pack.
name	string	No	Name for the query results returned by the list action.
path	string	No	Absolute path to a Verity/Lucene/SOLR collection.
